

Setup Jira Software

Open <http://<host-ip>:8080> in browser. Select default option and click Continue.

Select first option “Jira Software (Server)” and click generate license.

The screenshot shows the 'New Trial License' form. At the top, the title 'New Trial License' is in blue. Below it, there's a 'Product' dropdown menu set to 'Jira Software'. Under 'License type', there are two columns. The left column is for 'Jira Software (Server)' and the right for 'Jira Software (Data Center)'. The 'Jira Software (Server)' column lists features: 'Manage the entire application on your own servers or virtual machines.' and 'Deployable to a single server.' The 'Jira Software (Data Center)' column lists features: 'Everything with server plus:', 'Active-active clustering for true high availability and uninterrupted access.', 'High performance under high load and at peak times', and 'Disaster recovery.' Each column has a blue 'Select' button at the bottom. Below the license type selection, there's an 'Organization' text field containing 'fenago'. Under 'Your instance is:', there are two radio buttons: 'up and running' (selected) and 'not installed yet'. Below that, there's a 'Server ID' text field containing 'BM27-HPLG-OHAV-0QSC'. At the bottom, there's a note: 'Please note we only provide trial support for 90 days per product.' and a line of text: 'By clicking "Generate License" below, you agree to the Atlassian Software License Agreement and Privacy Policy.'

<ul style="list-style-type: none">• Manage the entire application on your own servers or virtual machines.• Deployable to a single server. <div>✓</div>	<p>Everything with server plus:</p> <ul style="list-style-type: none">• Active-active clustering for true high availability and uninterrupted access.• High performance under high load and at peak times• Disaster recovery. <div>Select</div>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Organization

Your instance is: ☒ up and running
☐ not installed yet

Server ID

Please note we only provide trial support for 90 days per product.

By clicking "Generate License" below, you agree to the Atlassian [Software License Agreement](#) and [Privacy Policy](#).

Click next and wait for setup to complete.

Finishing your setup

Now sit back while we set up your Jira instance. It will take a minute or two to complete.

- ✓ Configuring your database
- ✓ Initializing the plugin system
- ✓ Setting up your Jira environment
- 🔄 Finishing the setup

Jira is ready to go!

Your Jira instance is now set up and ready for you. Your login details are the email address and password you provided for your Atlassian account.

[Let's get started](#)

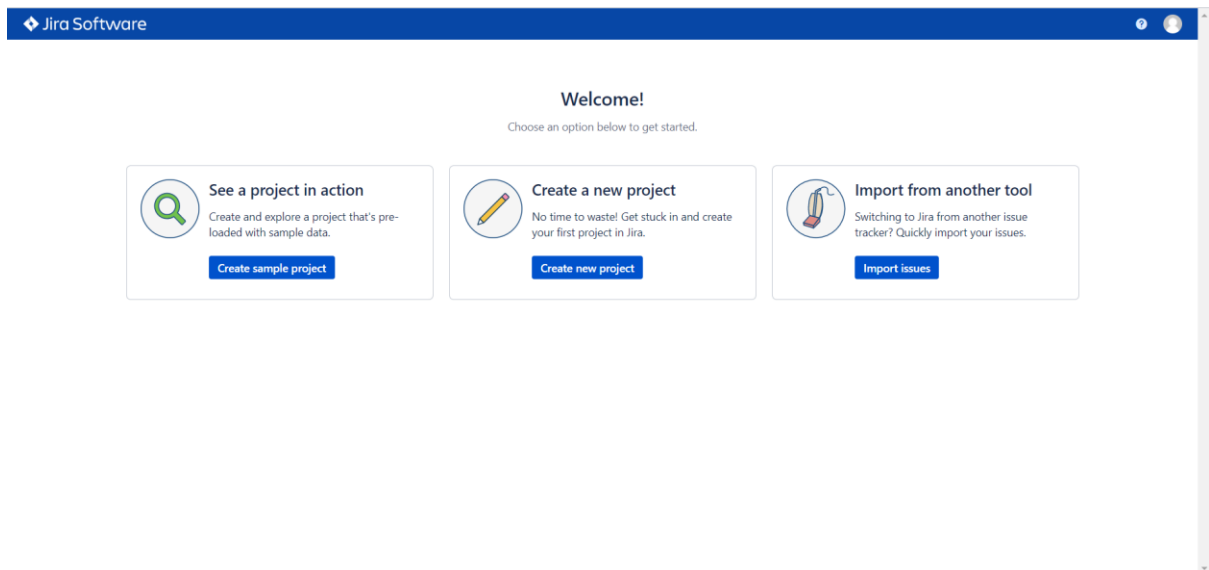

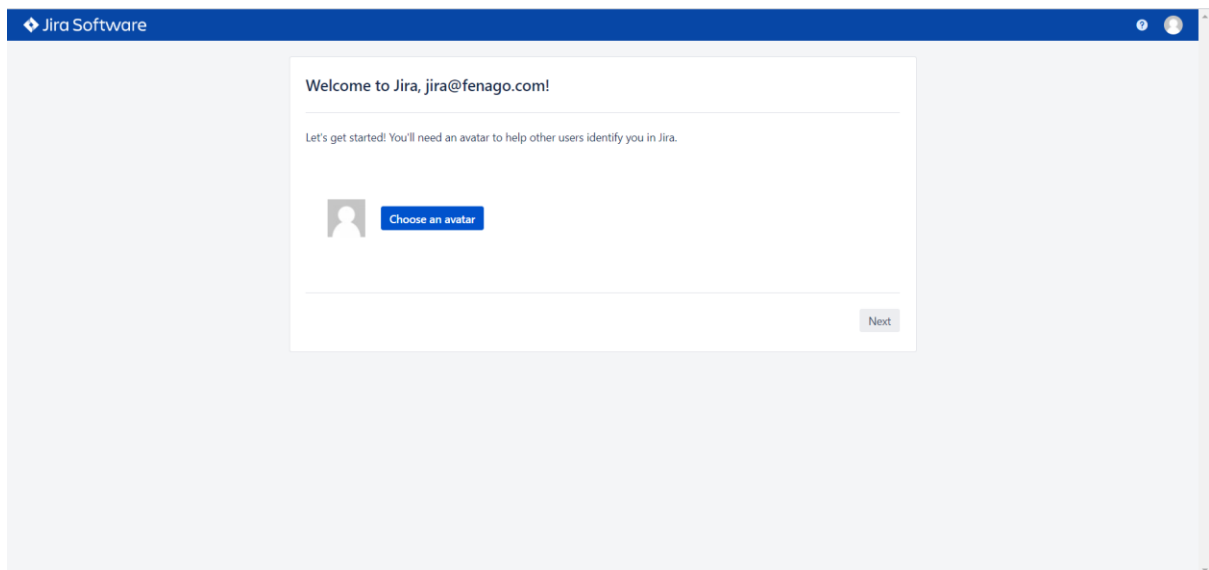

Your Jira instance can be accessed through any web browser if you enter this address:
<http://jiratest1.eastus.azurecontainer.io:8080/secure/WelcomeToJIRA.jspa>.

Before we begin, choose the language you want to use in Jira.
